

# Red Light Camera Summary Report

*Leaders in Service • Agents of Progress • Champions for Safety*

Fiscal Year 2014–2015

---

DECEMBER 31, 2015  
revised 01/07/16

## Introduction

Section 316.0083(4)(b), Florida Statutes, directs the Department of Highway Safety and Motor Vehicles (department) to provide a summary report on the use and operation of traffic infraction detectors (red light cameras) in Florida. Per statute, the department “must include a review of information submitted to the department by the counties and municipalities and must describe the enhancement of the traffic safety and enforcement programs.”

Section 316.0083, Florida Statutes, describes the process for violations of traffic infraction detectors. A traffic infraction enforcement officer issues a Notice of Violation (NOV) to the violator within 30 days of a violation. The violator may pay the notice or contest the violation through an appeals process within 60 days. If the violator fails to pay or appeal the notice, a traffic infraction enforcement officer issues a Uniform Traffic Citation (UTC) to the violator, with a copy to the Clerk of Court for adjudication.

Part one of the report summarizes red light camera programs that were operational during Fiscal Year (FY) 2014-2015. Part two includes the department’s analysis of crashes that occurred at red light camera intersections.

## Part 1

### Survey Methodology

The department created an online survey to gather information and data from counties and municipalities (jurisdictions) responsible for the administration of red light camera programs during FY 2014-2015. The 26 question survey included topics such as procedures, NOVs and program size, and covered activity that occurred from July 1, 2014 to June 30, 2015. As there is no statewide oversight of red light camera programs, the department does not have a definitive number of red light cameras in operation, nor the location of such cameras. Therefore, jurisdictions were also asked to complete a spreadsheet regarding camera and intersection locations, along with dates of operation. With this self-reported information, the department was able to independently analyze crash data.

Surveys were distributed to all jurisdictions that responded to previous red light camera surveys, and to those who remitted red light camera monies to the Department of Revenue (DOR) during the reporting period. In addition, the Florida Sheriffs Association, the Florida Police Chiefs Association, the Florida League of Cities and the Florida Association of Counties aided in distributing surveys to their members.

The deadline for survey responses was October 1, 2015. Actions that jurisdictions may have taken related to their program after that date are not reflected in this report.

### Summary of Survey Responses

In total, 71 jurisdictions responded that red light cameras were operational during the outlined reporting period (July 1, 2014 – June 30, 2015). Of the jurisdictions that remitted monies to the DOR during the reporting period, Bal Harbour Village and Florida City were the only jurisdictions that did not respond to the department’s survey.

Nine (12.7%) jurisdictions reported an increase in the number of red light cameras in operation, 22 (31.0%) reported a decrease and 40 (56.3%) reported no change. Similarly, six (8.5%) jurisdictions reported an increase in the number of intersections with an operational red light camera, 20 (28.2%) reported a decrease and 45 (63.4%) reported no change. Further, 53 jurisdictions reported that they are continuing their red light camera program in FY 2015-2016.

## Enforcement

Jurisdictions indicated:

- 963,039 NOVs issued<sup>1</sup>
  - 630,365 (65.4%) paid fine
  - 14,814 (1.5%) contested and dismissed
- 3,036 vehicle registration holds requested by jurisdictions
- 3,438 persons were issued multiple red light camera violations

<sup>1</sup> Some jurisdictions reported that they were not able to track the status of NOVs, therefore actual numbers may vary.

(Figure 1)

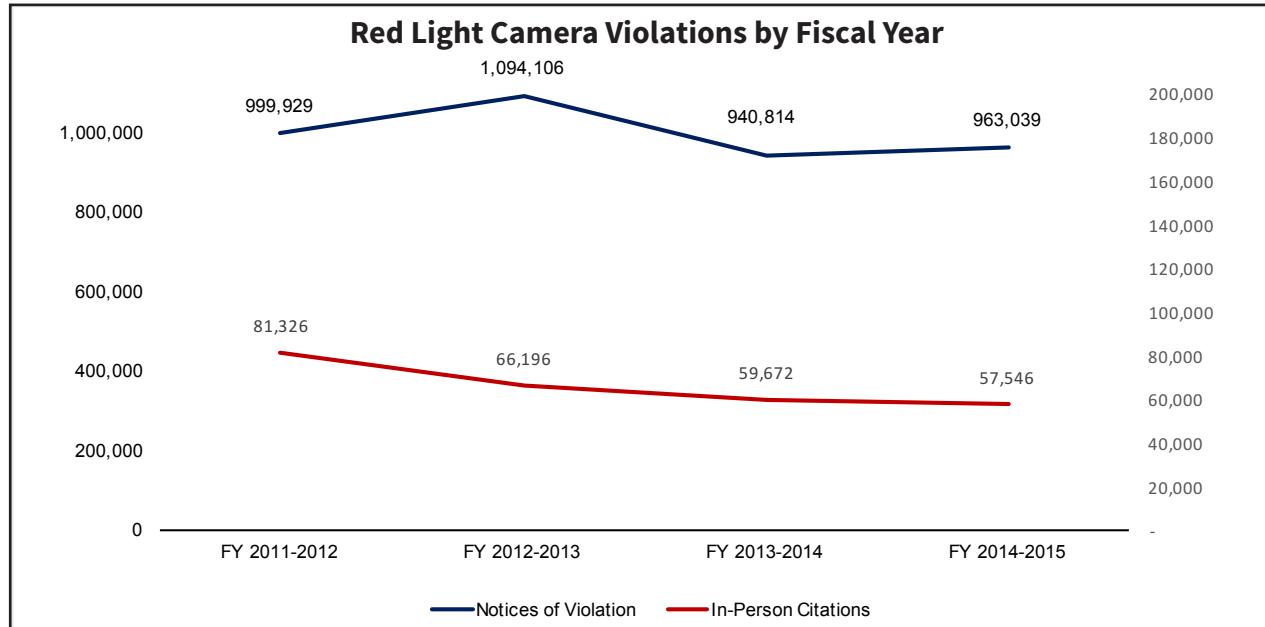

Figure 1 shows the number of NOVs issued for red light camera violations over the past four years. The graph also depicts the number of citations issued in person by law enforcement. The number of NOVs issued for red light camera violations has remained relatively steady, decreasing approximately four percent from FY 2011-2012 to FY 2014-2015. Over the same time period, the number of in-person UTCs issued for running a red light has decreased (approximately 30% reduction). The department must rely on self-reported information for the number of NOVs issued each year, but in-person citations are tracked through the Clerk of the Court System (UTC numbers reflect data submitted to the department as of 12/31/2015).

(Figure 2)

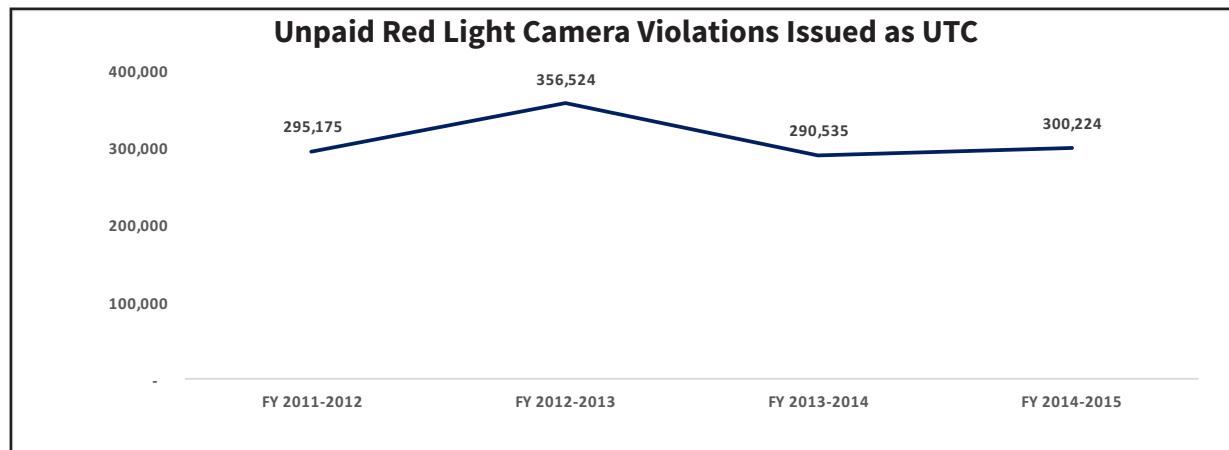

Figure 2 shows the number of unpaid red light camera violations that resulted in a UTC being assessed.

## Personnel

Jurisdictions were asked who reviews the camera images before issuing NOVs, who reviews contested NOVs and who ultimately issues UTCs. Options included law enforcement officer, non-sworn government employee, non-sworn contractor employee and other. The below table reflects jurisdiction responses.

(Table 1)

Personnel	Review Camera Images	Review Contested Notices of Violation	Issue Uniform Traffic Citations
Law Enforcement Officer	62	56	57
Non-sworn Government Employee	23	24	21
Non-sworn Contractor Employee	16	7	7
Other (see Appendix D)	5	11	8

*Jurisdictions could select multiple options for each question so numbers do not sum to the total number of respondents.*

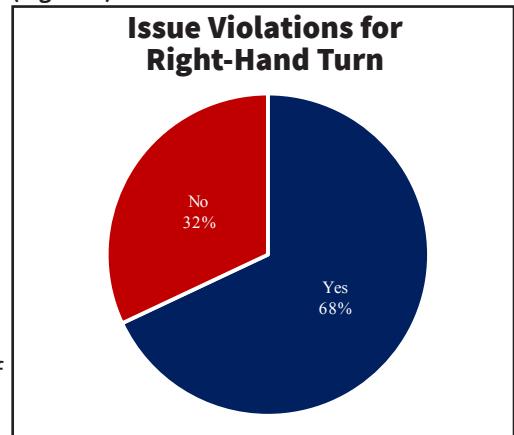

## Right-Hand Turns

Pursuant to section 316.0083, Florida Statutes:

- “A Notice of Violation and a traffic citation may not be issued for failure to stop at a red light if the driver is making a right-hand turn in a careful and prudent manner at an intersection where right-hand turns are permissible.”
- “A Notice of Violation and Uniform Traffic Citation may not be issued under this section if the driver of the vehicle came to a complete stop after crossing the stop line and before turning right if permissible at a red light, but failed to stop before crossing over the stop line or other point at which a stop is required.”

The terms in this section of statute are left to the interpretation of each respective jurisdiction (see Appendix C for definitions provided to the department). For FY 2014-2015, 68 percent of responding jurisdictions issued NOVs for persons making right turns on red signals. Jurisdictions indicated that 253,744 (26.34%) NOVs were issued for right-hand turns during the reporting period (July 1, 2014 – June 30, 2015). This was the first year the department has collected these numbers.

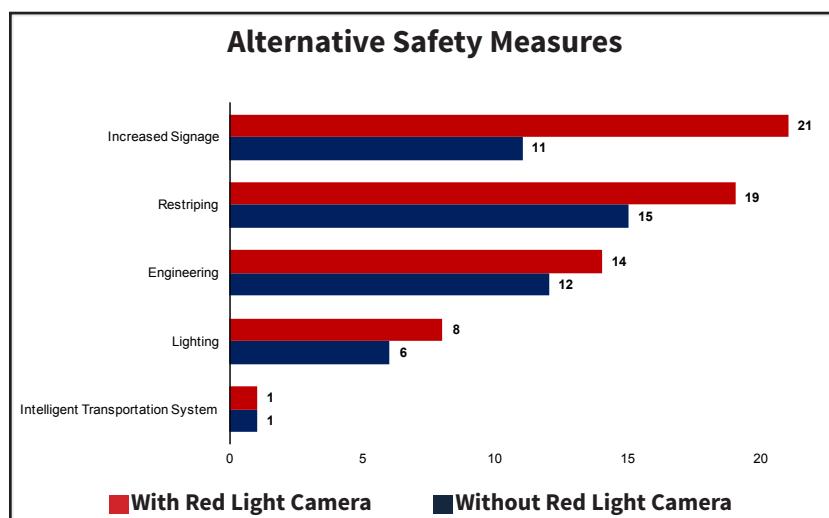

(Figure 3)

## Alternative Safety Measures

The department also inquired on what other actions jurisdictions had taken to improve safety measures at intersections during the reporting period. A majority of jurisdictions indicated that they had implemented at least one action. The results of this question are shown in Figure 4 (see Appendix D for other responses).

(Figure 4)

## Part 2

### Crash Analysis

Jurisdictions self-reported crash information for the past three red light camera reports. This year, however, the camera and intersection information provided by the jurisdictions allowed the department to independently analyze crashes using the official crash database. Intersections were only included in the analysis if at least one camera was active for at least one year, and the camera was activated between January 1, 2012 and September 30, 2014. These criteria were chosen because the current crash report form was implemented in 2011, and these dates allow at least one year comparison before and after the activation of the camera. Table 2 shows the breakdown of crashes that occurred before and after the activation of red light cameras at intersections included in the analysis. Reference Appendix A and B for a breakdown of crashes by reporting jurisdiction.

## Florida Department of Highway Safety and Motor Vehicles

**(Table 2)**

	Before RLC Installed	After RLC Installed	Percent Change
Total Crashes	3,453	3,959	14.65%
Angle Crashes	815	814	-0.12%
Rear-End Crashes	835	920	10.18%
Non-Incapacitating Injuries	495	506	2.22%
Incapacitating Injuries	174	225	29.31%
Fatalities	16	18	
Crashes involving Non-Motorists	185	216	16.75%
Fatal Crashes Involving Non-Motorists	4	7	

See Appendix C for definitions

The change in number of crashes noted in the analysis follows the statewide trend during the period of this analysis (approximately 50% increase statewide, 2011-2014). Two possible factors that could have contributed to the change in crash numbers are the increase in vehicle miles traveled (VMT) and the increase in crash reports with accurate location information (latitude and longitude). The probability of a crash occurring increases as people drive more, and daily VMT in Florida increased 4.7 percent from 2011 to 2014. The second factor is attributed to the reliance on location data for this analysis. In order to analyze crashes that occurred at certain intersections, it is necessary to know both the location of the intersection and the location of crashes. Intersection locations (latitude and longitude) were submitted along with the survey, however latitude and longitude are not attached to every crash report. The percentage of crash reports with location information has increased statewide 6.85 percent from 2011 to 2015, so it is possible that a higher percentage of crashes were analyzed in the “after” window than in the “before” window. The crash analysis should be put into context of the overall complexity of the issue at hand, as other factors may contribute to the change in number of crashes outlined in this report.

## Recommendations

The following recommendations would allow for accurate reporting of information that cannot currently be tracked through existing systems.

1. Require jurisdictions to track camera information including location (GPS coordinates) and dates of operation.
2. Require jurisdictions to track the issuance of NOVs, including the status of those violations (paid, contested, issued as UTC).
3. Require jurisdictions to track the issuance of NOVs for right-hand turns.
4. Require jurisdictions to report safety countermeasures taken prior to and after the installation of red light cameras (examples: infrastructure changes, type and layout of signage, pedestrian cross walks, bike lanes, intelligent transportation systems [ITS]).
5. In accordance with statute, the department will continue to review and report on the status and trends of the use and operation of red light cameras. In order to determine the enhancement of traffic safety, the department recommends a more thorough analysis be conducted by an independent organization using appropriate local and state agency resources.

Table does not include jurisdictions with no crashes involving Non-Motorists

## Appendix C: Glossary of Terms

<b>Angle Crash</b>	A crash where two vehicles impact at an angle. For example, the left front of one vehicle impacts the side of another vehicle.
<b>Rear-End Crash</b>	A crash where the front of one vehicle impacts the back of another vehicle.
<b>Non-incapacitating injury</b>	Any visible injuries such as bruises, abrasions, limping, etc.
<b>Incapacitating injury</b>	Any visible signs of injury from a crash or person(s) who had to be carried from the scene.
<b>Fatal Injury</b>	Any injury that results in death within a 30 day period after the crash occurred.
<b>Non-Motorist</b>	Any person other than an occupant of a motor vehicle in transport. This includes pedestrians, occupants of other motor vehicles not in transport and occupants of transport vehicles other than motor vehicles.

## Florida Department of Highway Safety and Motor Vehicles

### Appendix D: Jurisdiction Responses to Survey

Name of jurisdiction (City or County)	What Department oversees the red-light camera program?	Provide the contact information of the person completing the survey				Has your jurisdiction operated red-light cameras within the reporting period (July 1, 2014 - June 30, 2015)?	As of July 1, 2014, how many red-light cameras were operational?

## Florida Department of Highway Safety and Motor Vehicles

### Appendix D: Jurisdiction Responses to Survey

Name of Jurisdiction (City or County)	Statute 316.008(a)(1)(a), F.S., provides that "A notice of violation and a traffic citation may not be issued for failure to stop at a red light if the driver is making a right-hand turn in a careful and prudent manner at an intersection where right-hand turns are permissible." As this statute does not define "careful and prudent manner," please provide the definition used by your jurisdiction when determining if a violation should be issued.	What action(s) has your jurisdiction taken to improve safety measures as a result of your red light camera program? (at intersection(s) without red light cameras)
	Open-Ended Response	HALO technology (intelligent collision prevention system) Restrapping Engineering Increased signage Lighting HALO technology (intelligent collision prevention system) Restrapping Engineering Increased signage Lighting HALO technology (intelligent collision prevention system) Restrapping Engineering Increased signage Lighting
Boca Raton Police Department	The vehicle caused a potential hazard to other vehicles or pedestrians.	x
Campbellton	Violations exceeding 10 mph	x
	When 2nd vehicle has to slow to avoid a crash with violator.	x
	Having regard for angle, width, grade, curves, vehicles, pedestrian and all other attendant circumstances.	x
	Including but not limited to speed and visual obstructions, so as not to endanger the life, limb or property of any person.	x
	Note: Damage or injury does not have to occur in order for an event to be considered NOT careful and prudent.	x
City of Apopka		x
City of Aventura	Vehicle stops before, at or after the stop bar before turning right at the intersection	x
City of Boynton Beach		
City of Bradenton	Careful and prudent manner would be coming to a complete stop, ensuring that the driver of the vehicle had enough time to look at oncoming traffic to determine if it was clear to proceed.	x
City of Clearwater	Careful and prudent manner is defined by our jurisdiction by the vehicle coming to a complete stop than proceeding as long as the flow of traffic allows.	x
City of Clewiston		
City of Cocoa Beach	Taking into account the speed of the vehicle while turning, if there are pedestrians in the area, the length of time that the light has been red.	x
City of Doral Police Department		
City of Groveland	As long as it's safe and doesn't effect other vehicles traveling in that direction.	x
City of Gulf Breeze		x
City of Gulfport	A review is triggered if the vehicle's minimum speed at the final point of measurement before entering intersection is at least 14 mph. At that point, the issuing officer has discretion to determine, careful and prudent.	x
City of Haines City, Polk County		
City of Hallandale Beach	The combination of speed, proximity of other traffic, and/or proximity of pedestrians, is considered to determine whether turn was careful and prudent.	x
City of Holly Hill		
City of Hollywood	As it relates to right hand turn on red, the intersection must have signage stating "No turn on red" in order for a violation to be issued.	x
City of Homestead	Reviewing Officer determination, officers are instructed to only issue notices had they been present at the intersection and would have issued a UTC for the same violation for running the red light.	x
City of Kissimmee	We only issue right turn on red tickets at one intersection. That intersection is posted no right turn on red with two signs prohibiting the right turn. One of the two signs electronic and lights up when the light is red.	x
City of Margate		
City of Miami		
City of Miami Gardens	Violations are issued for right turns on red whenever the driver operates a vehicle in a continual motion without regard for oncoming, opposing or pending traffic at an intersection. The violation is also issued whenever the operator fails to slow, stop or yield to any pedestrian, or vehicle making a U-turn at a perpendicular angle.	x
City of New Port Richey	Our traffic enforcement specialists review all potential violations where motorists cross the stop bar at 15 MPH or more. The traffic enforcement officer considers the totality of the circumstances to determine if a violation occurred. A notice of violations is issued when the motorist proceeds to make the turn without slowing down, or causes other motorists to brake or take evasive action. . .	x
City of North Miami Beach		
City of Odessa	Less than 12 mph and determination by TIEO on statute compliance.	x
City of Orlando		x
City of Port Richey	Only Postied intersections Per the Hearing Officer: as long as the right turn does not violate the right of way of other vehicle or pedestrian traffic.	x
City of Sarasota	This is determined by the law enforcement officer who issues the violations and by the Special Magistrate who presides over hearings for contested violations based on the individual circumstances.	x
City of South Pasadena		
City of St. Petersburg	See attached "Question 21" to the Hearing Officer: as long as the right turn does not violate the right of way of other vehicle the statute also reads "but failed to stop before crossing over the stop line or other point at which a stop is required" <sup>d</sup>	x
City of Sweetwater	As a general guide, the Tallahassee Police Department uses the term "careful & prudent manner" as not negatively impacting pedestrians and other vehicles.	x
City of Tallahassee		x
City of Tamarac	Does not apply to City of Tamarac. Right turns on red are only enforced at the location which is posted "No Turn On Red". Where the violators vehicle makes the right on red against a solid red light does not interfere with oncoming traffic and/or pedestrians so as to constitute a hazard.	x
City of Tampa	If the reviewing officer were standing at the intersection and observed the violation, would he/she issue the driver a regular written UTC? If so, then it is also a Red Light Camera violation.	x
City of West Palm Beach	You can make a turn in a "careful and prudent manner" after coming to a complete stop pursuant to the directives of Florida Statute s 16075. However, our officers use their discretion when reviewing the violation and do not issue violations to anyone going under 12 MPH during a right turn unless aggravating circumstances exists.	x
City of West Park		
City of Winter Park		x

## **Appendix D: Jurisdiction Responses to Survey**

Name of Jurisdiction (City or County)	What action(s) has your jurisdiction taken to improve safety measures as a result of your red light camera program?	Response		Response		Provide any specifications/clarifications for any of your answers.	
Open-Ended Response		Other (please specify)		Open-Ended Response			
City of Boca Raton	Has your jurisdiction continuing the red-light camera program in fiscal Year 2015-2016?	No	Yes	Has red-light camera footage been used to investigate other crimes?	If yes, please provide additional details.	16	N/A
City of Rockville Police Department	Offices have increased presence by patrolling more through inter sectors	Yes	No	N/A	Felony Battery Case. Video was not useful, subject vehicle not located.(11/20/14) JCSO I-42	N/A	N/A
City of Adelphi	Extended the amber time 10% beyond minimum required by FDOT.	Yes	Yes	Robberies, burglaries, Hit and Run Crashes etc.	Question 18 - only a Law Enforcement Officer makes a determination as to whether a violation has occurred	N/A	N/A
City of Aventura	Contact FDOT to study intersections for layout and signage	Yes	Yes	Footage assisted official investigation 15 times	Red light Cameras are back Online and program is moving forward.	17	N/A
City of Bradenton	Extended the amber time 10% beyond minimum required by FDOT.	Yes	Yes	Video was pulled 91 times to assist in investigations. Accidents, Robbery, Homicide	Some information do not have access to and have asked our vendor for information to better answer the questions. Answers provided are to the best of my ability and may contain some errors. Right turn on red citations include intersections where right turns on red are not permitted and the intersections include signage.	N/A	N/A
City of Clewiston	None	No	Yes	Footage has been used to traffic accidents, shootings, stolen vehicles	Red light Camera Program is currently suspended as of March 6, 2015 and at this time it is unknown if it will be reinstated for the Fiscal Year of 2015-2016	N/A	N/A
City of Cocoa Beach	None	No	Yes	Traffic Homicides, Murder, Investigations, Hit & Run, Crashes	Please be advised we do not have complete data N/A has been provided because our cameras have been off since 07/15	N/A	N/A
City of Doral Police Department	None	No	No	Hit and Run Investigations have used the system to assist them with their cases.	During the reporting period, officers requested video from red light cameras 20 times for official investigations.	N/A	N/A
City of Groveland	None	No	No	None	Q20 additional signe has been placed at the intersections where the cameras are present.	N/A	N/A
City of Gulf Breeze	None	Yes	Yes	Traffic Crashes, Robbery cases, shootings, theft cases, and other police investigations	During this period, 7 times, 6 for general crimes and 1 for a crash investigation.	N/A	N/A
City of Gulfport	None	No	Yes	Thfts, vehicle thefts, and domestic violence cases.	Regarding question # 9, 162 cases was rescheduled. Regarding question #23, our Red Light Camera Program is currently suspended as of March 6, 2015 and at this time it is unknown if it will be reinstated for the Fiscal Year of 2015-2016	N/A	N/A
City of Haines City, Polk County	None	Yes	Yes	Video Pull-Accident 37, Video Pull-Robbery 2, Video Pull-Police Investigation 13, Video Pull-Homicide 6, Video Pull-Accident Fatality 4, Video Pull-Accident Hit & Run 1	#23 Pending contract renewal after Nov 2015	N/A	N/A
City of Hallandale Beach	None	Yes	Yes	Has assisted in criminal investigations & crash investigations	#23 Pending contract renewal after Nov 2015	N/A	N/A
City of Holly Hill	None	Yes	Yes	Footage used to identify armed robbery vehicle	423 Video Requests were submitted	N/A	N/A
City of Hollywood	None	Yes	Yes	Hit & Runs, Traffic homicides, Homicides, Robberies, etc.	423 Video Requests were submitted	N/A	N/A
City of Homestead	None	Yes	Yes	The red light camera data and video footage captured by red light cameras have been instrumental in identifying, solving and verifying criminal activities, traffic fatalities, and crash investigations. The red light camera video footage has been shared with investigators from Miami Gardens and surrounding jurisdictions in their quest to solve crime and provide evidence used to validate and vindicate the	Question 18. The footage of potential violations are forwarded to our department by a contractor based upon specific business rules provided by our department. When the footage is received, it is reviewed by our traffic enforcement specialist who determines if a notice of violations should be issued.	N/A	N/A
City of Kissimmee	None	Yes	Yes	During the reporting period, red-light camera footage was requested 24 times, 14 times for general investigations, four times for traffic crash investigations and 6 times for a homicide investigation.	Since 2011 when the cameras were first installed, footage has been requested 96 times, 34 times for general investigations, four times for robberies, seven times for homicides, eight times for hit & runs, 28 times for traffic crashes, two times for shootings and two times for car break-ins.	15	N/A
City of Margate	None	Yes	Yes	Amemi vs. City of Hollywood. Cameras operational, but Sheriff (IEO) is not processing, citing 4th DCA ruling. City invoking Budget Appropriations Clause in contract for FY15/16, program will not be funded.	Amemi vs. City of Hollywood. Cameras operational, but Sheriff (IEO) is not processing, citing 4th DCA ruling. City invoking Budget Appropriations Clause in contract for FY15/16, program will not be funded.	N/A	N/A
City of Miami	None	Yes	Yes	Per vendor, footage has assisted investigations 10 times.	None	N/A	N/A

### Appendix D: Jurisdiction Responses to Survey

Name of jurisdiction (City or County)	Statute 316.0083(3)(a), F.S., provides that "A notice of violation and a traffic citation may not be issued for failure to stop at a red light if the driver is making a right-hand turn in a careful and prudent manner at an intersection where right-hand turns are permissible." As this statute does not define "careful and prudent manner," please provide the definition used by your jurisdiction when determining if a violation should be issued.	What action(s) has your jurisdiction taken to improve safety measures as a result of your red light camera program?	What action(s) has your jurisdiction taken to improve safety measures as a result of your red light camera program? (at intersection(s) with red light cameras)	What action(s) has your jurisdiction taken to improve safety measures as a result of your red light camera program? (at intersection(s) without red light cameras)
Open-Ended Response	Open-Ended Response	HALO technology/intelligent collision prevention system)	HALO technology/intelligent collision prevention system)	HALO technology/intelligent collision prevention system)
CLEMONT	RIGHT HAND TURN TO BE MADE AFTER EXERCISING CAUTION BY SLOWING DOWN TO ALLOW FOR PEDESTRIANS IN CROSSWALK TO CONTINUE SAFELY AND TO ALSO GIVE RIGHT OF WAY TO ANY ONCOMING TRAFFIC.	Resstriping	Engineering	Increased signage
Coral Gables	If there is no apparent effort to slow down or stop and the speed exceeds a minimum of 10 mph.			
CORAL SPRINGS	I-HSO maintains a 15 mph threshold for right on red violations and only possesses two intersections with right turn enforcement.			
Cutile Bay				
Edgewood Police Dept.		x	x	x
Fort Lauderdale / Broward County				
Green Cove Springs				
Hillsborough County				
Jacksonville		x	x	x
Lakeland, Polk County	Consideration of factors for a safe turn include: People present in the area, day or night, weather conditions, wet roads, fog/smoke, number of cars on roadway, time of day, cars in intersection, speed of care traveling, speed of violation vehicle, size of vehicles around subject car, any obstructed views etc.	x	x	x
Maitland	Motorists may make a turn in a careful and prudent manner after coming to a complete stop pursuant to the directives of Florida statute 316.075. However, our officers use their discretion when reviewing the violations and do not issue violations to anyone going under .76mph during a right hand turn unless aggravating circumstances exist.			
Manatee County Government	The camera footage is viewed by a sworn law enforcement officer employed by the Manatee County Sheriff's Office. If the deputy reviewing the footage feels they would ticket the violation if they were in person at the light then they make the determination to ticket the violation from the camera.	x	x	x
Miami Beach	The vehicle must come to a stop at some point during the negotiation of the turn. The vehicle must yield to pedestrians and on-coming traffic.		x	x
Miami Springs	The vehicle should be travelling less than 15 miles per hour. Drivers must yield the right of way to other drivers and to pedestrians attempting to cross the street within a crosswalk.	x	x	x
Milton Police Dept., Milton FL			x	x
North Miami	Travelling at a low rate of speed (Normally between 10-15mph). No pedestrians present. Not interrupting the flow of traffic.			
Ococoee	any vehicle which makes a right hand turn and fails to fully stop before the turn and is travelling faster than 12 mph at the start of the turn.	x	x	x
Orange County	Only enforce right on red at locations that have a no turn on red sign when ill lit. If vehicle does not stop within their turn.	x	x	x
Osceola County				
Paiatka	Based on the present and visual speed at the time a vehicle makes the right turn and if there are any pedestrians in the crosswalk or on the sidewalk.			x
Palm Coast	maximum safe speeds per FDOT green book.	x	x	x
SUNRISE	A right turn on red conducted at a speed greater than 15 mph without hesitating to slow prior to initiating the turn. Consideration is given to the amount of traffic in the adjacent lanes. U-turning vehicles having the right of way, traffic on the road way, and pedestrian traffic at the intersection.			
	The term "careful and prudent" is not specifically defined by Florida State Statute. It is however referred to in §316.1925 as follows: Careless driving - Any person operating a vehicle upon the streets or highways within the state shall drive the same in a careful and prudent manner, having regard for the width, grade, curves, corners, traffic, and all other attendant circumstances, so as not to endanger the life, limb, or property of any person. Failure to drive in such manner shall constitute careless driving and a violation of this section. It can therefore be inferred that making a right turn in a manner that would violate §316.1925 meets the legislated standard for issuance of a right turn violation under §316.0083.			
The City of Daytona Beach				
Town of Davie			x	
Town of Juno Beach	Complete stop necessary prior to proceeding with the right-hand turn when heavy vehicle traffic on the roadway the vehicle turns onto. Vehicle must not turn when pedestrians are within the crosswalk.		x	x
Town of Kenneth City	As per local head count traffic judge determination right turns completed at 12 mph or higher on a right turn in not careful or prudent.			
Town of Medley	Vehicle traveling at 12 MPH or less, no pedestrians in the intersection. No cross or turning traffic affected.			
Town Of Orange Park	Only one intersection is monitored. A vehicle has to pull into the bicycle lane and pass other vehicles before making the right hand turn and failing to come to a complete stop.			
TOWN OF SURFSIDE	When the vehicle in question is traveling in excess of 12 miles per hour and makes a right-hand turn without stopping or when pedestrians are present in the crosswalk and the vehicle does not come to a complete stop.			
VILLAGE OF KEY BISCAYNE	THE DRIVER OF THE VEHICLE FAILED TO MAKE A COMPLETE STOP WHEN ENTERING THE INTERSECTION WITH A RED LIGHT.			
Village of Pinecrest (City)
